THURSDAY, AUGUST 23, 1894.

IN NEBRASKA.

Nebraska has, since the date of its admission into the Union, been Republican "without a lucid interval," and it is interesting to learn from the report of the proceedings of the Nebraska Republican State Convention yesterday, just what Republicanism means now, and what fruits it brings forth.

The work to be done by the convention was the nomination of Tom Majors for Governor, and after a prayer by the Rev. Dr. Brooker the convention proceeded at once to force this nomination by a cheap parliamentary trick unworthy of any self-respecting body.

This was followed by the resignation of Editor Rosewater, of the Omaha Bee, from the Republican National Committee, his reasons for doing so being given in the convention in a letter, a portion of which is as follows:

"You have nominated a man for Governor who has been indicted on an accessory to forgery and perjury. Republican Congressional Committee; a man who has consorted with hoodlums and jobbers, and converted the room of the Lieutenant-Governor of the Capitol of State into a den for debauches; a man who has been the plant of railroads in season and out of season, and whose nomination was procured by the combined influence of corporate capers, professional bribe-givers, jury fixers and impeached State House officials."

Mr. Rosewater's resignation was promptly accepted, and Corporation Attorney John M. Thurston, the General Solicitor of the Union Pacific Railroad, was elected to fill the vacancy.

Nebraska was once the cradle of the Republican party. It has been faithful to the party through all its growth and life, and it now seems ready to do its share towards preparing the grand old party for the grave.

HOLMAN.

The Fourth Indiana District has earned the thanks of the country by renominating for Congress the Hon. W. S. Holman, the "watch-dog of the Treasury." If his zeal for economy goes too far, as it sometimes does, it is a fault which can be easily pardoned. There is little danger of its becoming contagious or of its spreading to such an extent as to impair the efficiency of the Government. In case there should be too many Holmans in Congress, or too much Holmanism in the appropriation bills, we can always depend on a subsidy grubbing insect of the lobby on the vested interests of protectionism, and on the alliance between trusts and legislation to check the excesses of thrift and frugality. But just at present there is little danger from this direction, and what is wanted now is rather a little more Holman and a little less Sugar in shaping our National legislation.

DENIALS NOW FALLING DUE.

Inspector McLaughlin denies everything. To be sure, he does not if he would be content to confess to everything it would be in order to have his skull measured, his actions looked into and a nicely plastered room in Bloomingdale engaged for him for the rest of his official career.

He may not know anything about panty-stay as it is, and these remarks are intended to carry on the impression that he does, but if he did, mind you, and didn't deny it, he would be a fool and unfit to wear a high collar and the uniform of his calling.

Pantystay is not an esoteric science exactly. There are some people who know all about it, but a policeman who wouldn't deny its existence in toto would be put down by every member of the force as the most effeminate of all blooming idiots.

"GOOD-BY, CAP."

A great deal has been written and spoken about Jeffersonian Democracy and Jacksonian simplicity, and a great many young statesmen of the current generation have "rooted" most enthusiastically on tribute and in forum for them. But we are not afraid to assert that most of them did not know the things they were whooping up so lively. If they had been at Jersey City yesterday when President Cleveland left the tender John D. Rodgers, without the use of a lighter or derrick, but had to be lifted to the Pennsylvania road's platform by the huge freight elevator, they would have gotten an idea of what Jeffersonian Democracy and Jacksonian simplicity must have been. It wasn't the disbarment of his very ride on the freight elevator that furnished the exemplification, oh, no, it was something simpler and more democratic. It was his farewell speech to Capt. Halsey, in which he said "Good-by, Cap."

Now you wouldn't expect the President of the United States to be quite so undignified as "you would?" But it's worthily agreeable to hear such words as "Good-by, Cap" fall from the lips of a President. There is heart and wide-open gentleness in them, and they are as democratic as they are simple, and vice versa. At the Cabinet meetings he would call Secretary Carlisle Jack, and as for his own private secretary, why we wouldn't be surprised to learn that he addressed him as "Thurby, old boy."

Secretary Herbert's statement in regard to the armor-plate frauds is most remarkable. He admits the existence of a conspiracy to defraud the Government, but says he could not prosecute Frick or Carnegie because the Government was dependent upon them to supply the defective plates. In the next breath he declares there was no proof that the Carnegie Company knew of the frauds. With Messrs. Frick and Carnegie, however, it was different. There was no excuse handy for them, so they were promptly arrested. Mr. Herbert concluded his remarkable statement by saying that in future all such cases of fraud will be vigorously dealt with. If utterances are as weak as the Carnegie plates.

the garbage which is now cast on the waters. This is done elsewhere, and there is no reason why it cannot be done here.

All the life-saving stations in the country opened yesterday under the new law which lengthens the season of duty two months. Despite the additional service, the Government has reduced the wages of the men to \$60 per month. Experience has demonstrated that it is poor economy to reduce wages where human life is concerned, and the brave fellows cannot be blamed for grumbling a little over the unfairness of Uncle Sam.

There have been many accidents of late due to ignorance or negligence in blasting. The authorities should see that full protection is afforded to residents and pedestrians in the vicinity of the work. It is small comfort to an injured person to learn that a police justice "condemned the contractor and discharged him."

It appears that Acting Mayor McClellan had not known enough about politics to get a couple of labor tickets from the Park Department, but at the same time it is proper to remark that any man who knew all about the ways of the Park Department would not have been so foolish as to be known about politics.

Capt. Carter, of the Prince of Wales's Royal Britannia, has received from His Royal Highness, in recognition of six successive victories over Vigilant, a gift of a pocket aneroid compass. Thrift was ever one of the marked traits of the Guelph, and Albert Edward is undoubtedly a true Guelph.

A New Orleans Alderman has been found guilty of accepting the sum of \$100 for his vote in favor of the transfer of a privilege for a coal-bait landing. No New York Alderman would ever get so low as to accept such a sum of money for his vote. They are all above it—very far above it.

Our compliments to Blanche S. Leathery, the first lady to get a master's license to navigate the turbid and shifting currents of the Mississippi. May success follow her ventures and her voyages, and yet for woman it is a higher mission to box the children than to box the compass.

The enthusiasm at Owen's barbecue and canvass in Kentucky is in marked contrast to the coolness manifested towards Col. Breckinridge by political opponents. There is a dark cloud on the silver-haired Kentucky statesman's political horizon.

Having protested in vain against the passage of the Tariff bill, disgruntled people are now picking flaws in its punctuation. Dissatisfaction with the paper and type used is next in order.

Judge Holman has been renominated to Congress, and if he lives to complete his term he will have served thirty years. This is one of the things that the Great Objector doesn't object to.

The small boy's thoughts are now turned towards school, and soon whaling stories will supplant the fish yarns of a Summer vacation.

President Cleveland went around New York yesterday without effort, but he seems to have great difficulty in getting around the Tariff bill.

With the prospect of the Tariff bill soon becoming a law, industries of the country are beginning to hump.

In the way of charity the success of the year is "The Evening World" Sick Babies' Fund.

The dynamite shell and the dynamite gun have made a successful combination.

The next Mayor of New York must be a Democrat.

His Secretary Says the Aged Statesman is in Good Health.

LONDON, Aug. 23.—Alarming rumors were circulated here and elsewhere today in regard to the health of Mr. Gladstone.

His secretary, in reply to the telegrams asking if the aged statesman was ill, announced, during the afternoon, that he found Mr. Gladstone in a sensational report, adding that Mr. Gladstone was enjoying his usual good health.

GOLDSTEINS INDICTED.

Accused of Beating and Robbing Landlord Wallach.

Samuel and Lena Goldstein, together with Leo Cohen, were indicted this morning by the Grand Jury, charged with robbery.

The trio set upon Samson Wallach, the owner of the property where the Goldsteins live, at 30 East Ninety-third street, when the former went to collect the rent on Aug. 15. He alleges the beat him senseless, knowing he had money at that time, and took \$600 and notes for \$1500.

Goldstein said, when arrested that night, that he found Wallach in his wife's room, and as a result assaulted him, Cohen lending a hand to make a good job of it.

Prince Komatsu Will Depart This Evening.

Prince Komatsu expects to depart for his home, via San Francisco, at 8 o'clock this evening. He sent word to a reporter that his infirmed car was being driven to the station, and that he would remain in his room until the time for departure. During the morning he was visited by the Japanese Consul at this port.

You read The Evening World! Do you read The Sunday World?

LOCK OUT OF 25,000.

Every Fall River Mill Will Be Idle To-Morrow.

Manufacturers Decide Upon that Course in Secret Session.

New Bedford Strikers to Confer with the Mayor.

(By Associated Press.)

FALL RIVER, Mass., Aug. 23.—The great textile strike here today developed into a lock-out, and as a result tonight will see 25,000 idle mill operatives in the city of Fall River.

Tonight every mill operated by the men who are members of the Manufacturers' Association will shut down indefinitely. These mills include every establishment engaged in the manufacture of print cloth, and the shut-down throws 25,000 men and women out of employment. There are at present about 2,500 who have voluntarily quit work, which swells the total to about 25,000 idle operatives.

The decision to close was reached by the manufacturers at their secret meeting yesterday, and is the result of an agreement to close the mills at any time that three-fourths of the looms were silent for any cause. This was true yesterday, and today's notice rendered.

The shut-down will leave a total of 3,750 employees at work in the Harnay Manufacturing Company, Fall River Iron Works, Conant and Seacomet mills. These establishments are engaged in the manufacture of goods that do not come under the manufacturers' agreement.

The Weavers' Association meet this afternoon to discuss the advisability of calling off the King Philip Mill strike, which has been on for some time. If this is done it will place the strikers on the same footing with the other employees.

NEW BEDFORD, Mass., Aug. 23.—The principal feature of interest in the strike situation here today was the conference to be held to-night on the call of Mayor Brownell.

The labor secretaries have voted to attend the conference, but the manufacturers are non-committal, most of them declining to answer any questions on the matter.

Messrs. Barry and Warner, of the Standard Street Association, arrived in the city this morning. They said that their visit was not really an official one. They had come to see the city, and to ground, and will decide later on a course of action.

The gentlemen held a conference with the officials of the Spinners' Union. Later they had a session with Mayor Brownell, of whom they were in the matter they expressed approval.

The weavers and back boys held meetings on the Common this morning. The boys took steps towards the formation of a union, and passed rules for fining delinquent members. It was voted to elect a "big fellow" treasurer.

LOVES HIS ENEMIES.

Mr. Delmar Contributes \$50 to Aid a Sick-Child Worker.

A story was told in the vicinity of the Brooklyn City Hall this morning which will tend to soften the bitter feelings entertained by some of the composers who went on strike against the newspaper, printed by a corporation headed by John Delmar.

Known politician of the Twenty-second Ward, who has been credited with being the cause of all the trouble between that newspaper and its employees.

Last Spring Mr. Delmar ordered a reduction of wages. The composers objected, and one of the principal agitators who favored striking was a man who was denouncing Delmar and insisted upon "tying up" the establishment.

The composers, and the pressmen went out, and the strike has never been settled.

Recently Mr. Delmar resigned the Presidency of the company, and it was rumored that he had been forced out by the other owners, who objected to his policy of reducing wages.

The rumor has been denied. Mr. Delmar was finishing his supper last night when he was called to the door, and there recognized his visitor.

"Do you remember," said the caller, naming the agitator spoken of, "that I told you that I was going to strike your wife was taken sick. He has eight children and has great difficulty in procuring food for them. He has sought work, but has been unsuccessful."

Now the family is on the verge of starvation, and unless help comes the children will be separated. His wife will be sent to an orphan asylum, and the children to an orphan asylum.

"Well, I am awfully sorry," said the wealthy man, "but why didn't you come to me before?"

He led his visitor into the library and seated him at a desk, wrote a check for \$50.

"Give him this," said Mr. Delmar, "and let him be satisfied."

The visitor was so much surprised that he could scarcely murmur his thanks. The wealthy man said: "Why didn't you come to me before?"

"I'll forget all about it by morning."

The Sick Babies' Fund is very near the \$20,000 mark. It is booming on towards it. There is in the Fund \$19,738.33.

The Fund's corps of free doctors has saved nearly as many little lives as it has received in donations. It is a people's fund, constantly by the side of the cradles in the tenements, and its presence there means that disease and death must not try to do any of their cruel harm to the helpless little occupants of the cribs. Many prayers are daily ascending for the contributors to this popular charity, and poor mothers and fathers who have their babies in the arms of the cradles in the tenements, and its presence there means that disease and death must not try to do any of their cruel harm to the helpless little occupants of the cribs.

MANAGER ST. JOHN WITNESS

He Details the Rock Island's Share in the Strike.

(By Associated Press.)

CHICAGO, Aug. 23.—General Manager E. St. John, of the Rock Island Railroad, was called before the strike commissioners today. Mr. St. John had prepared a history of the strike as it affected his road, and read to the Commissioners a detailed account of the trouble.

Mr. St. John emphatically denied the statement that United States marshals used during the riots were controlled by the railroads.

"We asked for protection, and furnished many of our employees, who were sworn in as deputy marshals. But after being sworn in, we had nothing more to do with them. They were commanded and controlled, I suppose, by the United States Marshal."

Coxeities in Philadelphia.

(By Associated Press.)

PHILADELPHIA, Pa., Aug. 23.—Sixty dilapidated creatures representing the remnants of Casey's army, arrived in this city last night, feeling greatly outraged because they had been locked in a car while in Maryland and could not get a chance to enter between Hyattsville and the city. They were taken to a city hall and applied for shelter, and were referred to a warehouse. Arriving there, three of them were taken in and 25 other six-sevens, being taken wherever they could find them.
